Switch Type: **Plug-In**

Lamp Type: **E26 - Medium Base - 120V AC, 60HZ**

Lamp Wattage: **25W per socket, 1250W total**

Lamp Quantity: ***50 (See Notes)**

UL Listing: **UL listed for outdoor & indoor use**

Mounting Instructions: **Refer to architectural drawings for location. String Lights should not span more than 20 feet.**

Notes:

***For outdoor applications - product must be connected to a Ground Fault Circuit Interrupting (GFCI) outlet.**

Bulbs not included - refer to OF-300.1 for recommended bulb specification. OF-300 requires 50 Total Bulbs or 2 Cases (25/ea.) of OF-300.1

Exterior lighting must be controlled by a photocell with a manual override switch, by time clock or by building automation system - override switch or other controls to be located in the Back of House area. The control system must switch all lights on and off simultaneously.

Refer to manufacturer specifications for additional instructions.

Required Item(s) for Designer Approval Prior to Fabrication:

Prepared By: MM

☐ Seaming Diagram ☐ Strike-Off ☒ Finish Sample ☐ Cutting ☒ Shop Dwgs ☐ Prototype ☐ Flame Certificate

Instructions:

- Must be of contract quality and suitable for commercial use.
- Provide all parts, pieces, and instructions for complete installation. Mounting method to be sufficient for weight of piece.

Project Name: **V2.2 Prototypical Architectural Specs**

Project #: **Tru by Hilton**

Issue Date: **05/14/18**

Revision(s): **08/30/19** **Δ 1**
Mounting Notes Revised

Item Number: **GR-602**

Item Description: **Illuminated Mirror @ Accessible Guest Bath**

Area Name: **Guestrooms**

Item Quantity:

Manufacturer: **REQUIRED VENDOR**

Source: **SEE 'NOTES' BELOW**

Instructions:

- All materials and methods of construction must comply with all local fire and life safety codes for use in hotels and other public spaces, and Tru by Hilton Standards.
- Manufacturer to clearly mark each carton with item ID and specification number.
- All quantities to be verified by hotel operator prior to purchasing.
- All interpretations of the specification **MUST** be submitted to Hilton for final approval prior to purchasing or implementation of any material.
- Show all pieces in scaled shop drawings. Entire fixture shall be inspected during the manufacturing and again after final assembly.
- Manufacturer/Fabricator to verify installation method and hanging points.
- Manufacturer/Fabricator to confirm weight of fixture.
- Fixture must be U.L. Listed and so labeled. Manufacturer is responsible for submitting all technical specifications for fire safety, UL standards, and any other specifications that are required to comply with local and state fire codes.
- All pieces must be crated for shipping. All corners should be wrapped with corner guards. Crates should be labeled with instructions for shipment, storage, and opening of crate.
- Manufacturer to provide security mounting and hardware.
